

# FYSICA 2025 – Leiden 11 April 2025

## **Focus session Education: the nature of physics**

This session will be dedicated to the new examination programs and core objectives (kerndoelen) for physics education, which have been developed over the last years, and in which a more central role has been assigned to the nature of physics and natural sciences.

The session is interesting for teachers at secondary schools (vo), anybody who teaches or is in charge of middle and higher vocational education (mbo, hbo) and also for physicians who work in the business sector.

There will be ample time for questions.

### **Speakers:**

**Marijn van Nijhuis (HU) and Kim Krijtenburg (UU, member of the education innovation committee (vakvernieuwingscommissie))**
