Applied Physics – Student Labs & Educational Facilities tour

Are your college years long behind you, but are you curious about how (applied) physics education has developed in recent years? Then join the Student Labs and Educational Facilities tour. Our enthusiastic Applied Physics students will take you along the new Homebase, study association Arago and our student labs, where a number of experiments and set-ups will be demonstrated.

- Start: 13h00
- Starting Point: in Hal B
- Duration: 30 min.
